<sup>1</sup> Aeromexico holds exemption authority to serve between New York and Acapulco (see Notice of Action Taken dated September 26, 2001), and foreign air carrier permit authority to serve between New York and Puerto Vallarta (see Order 91-5-25).

**XX The authority granted is consistent with the aviation agreement between the United States and Mexico.**

Except to the extent exempted or waived, this authority is subject to the terms, conditions, and limitations indicated:

**XX Delta's certificates of public convenience and necessity**

**XX Aerovias de Mexico, S.A. de C.V. foreign air carrier permit (Order 91-5-25)**

**XX Standard Exemption Conditions (attached)**

---

**Conditions:** The U.S.-Mexico exemption authority granted to Delta is subject to the dormancy notice requirements set forth in condition 7 of Appendix A of Order 88-10-2. In addition, the exemption authority granted is limited to services provided on a code-share basis only.

The route integration authority granted to Delta is subject to the condition that any service provided under this exemption shall be consistent with all applicable agreements between the United States and the foreign countries involved. Furthermore, (a) nothing in the award of the route integration authority requested should be construed as conferring upon Delta rights (including fifth-freedom intermediate and/or beyond rights) to serve markets where U.S. carrier entry is limited unless Delta notifies the Department of its intent to serve such a market and unless and until the Department has completed any necessary carrier selection procedures to determine which carrier(s) should be authorized to exercise such rights; and (b) should there be a request by any carrier to use the limited-entry route rights that are included in Delta's authority by virtue of the route integration exemption granted here, but that are not then being used by Delta, the holding of such authority by route integration will not be considered as providing any preference for Delta in a competitive carrier selection proceeding to determine which carrier(s) should be entitled to use the authority at issue.

The code-share operations authorized are subject to the following conditions:

- (a) The statement of authorization will remain in effect only as long as (i) Delta and Aeromexico continue to hold the necessary underlying authority to operate the code-share services at issue; and (ii) the code-share agreement providing for the code-share operations remains in effect.
- (b) Delta and/or Aeromexico must promptly notify the Department (Office of International Aviation) if the code-share agreement providing for the code-share operations is no longer effective or if the carriers decide to cease operating the code-share services. Such notice should be filed in Docket OST-2001-10691.<sup>2</sup>
- (c) The code-sharing operations conducted under this authority must comply with 14 CFR 257 and with any amendment to the Department's regulations concerning code-share arrangements that may be adopted. Notwithstanding any provisions in the contract between the carriers, our approval here is expressly conditioned upon the requirements that the subject foreign air transportation be sold in the name of the carrier holding out such service in computer reservation systems and elsewhere; that the carrier selling such transportation (*i.e.*, the carrier shown on the ticket) accept responsibility for the entirety of the code-share journey for all obligations established in its contract of carriage

with the passenger; and that the passenger liability of the operating carrier be unaffected; and the operating carrier shall not permit the code of its U.S. code-sharing partner to be carried on any flight that enters, departs, or transits the airspace of any area for whose airspace the Federal Aviation Administration has issued a flight prohibition; and

- (d) The authority granted here is specifically conditioned so that neither Delta nor Aeromexico shall give any force or effect to any contractual provisions between themselves that are contrary to these conditions.

---

On the basis of data officially noticeable under Rule 24(g) of the Department's regulations, we found the U.S. carrier applicant qualified to provide the services authorized.

Under authority assigned by the Department in its regulations, 14 CFR Part 385, we found that (1) our action was consistent with Department policy; (2) grant of the application was consistent with the public interest; and (3) grant of the authority would not constitute a major regulatory action under the Energy Policy and Conservation Act of 1975. To the extent not granted or deferred, we denied all requests in the referenced Docket. We may amend, modify, or revoke the authority granted in this Notice at any time without hearing at our discretion.

Persons entitled to petition the Department for review of the action set forth in this Notice under the Department's regulations, 14 CFR §385.30, may file their petitions within ten (10) days after the date of issuance of this Notice. This action was effective when taken, and the filing of a petition for review will not alter such effectiveness.
